The experts agree! Recent National research on residential students show that those who live on campus are more satisfied with their school experience, social adjustment and get a lead for post high school living.

Things to think about!

Be open:

You will encounter people with different personal histories and upbringings. You will have to be tolerant and open to their ways of living, opinions and habits. Understanding and Tolerance are the keywords.

Sharing is caring:

Initially, you may have to live with people whom you don't know and will have to share a room, bathrooms, dining tables - almost everything with them. But soon enough, you'll have close friends with whom you can share and exchange ideas.

ENJOY!

Lastly, you are not staying away from home just to bury yourself in books. So explore your school and enjoy. You could have the time of your life studying and preparing for your exams along with 'growing up'. But whatever you do, just remember that you are on your own- so be responsible. Always! Remember that there have been many a winners away from home... And you are one of them!

Residential Counseling is Available.

Our Residential Counseling is available to students from 1pm-9pm on Weekdays. Referral to local resources, group sessions and one on one sessions are available.
